AE : Arterial Vessel Elasticity
PE : Peripheral Vessel Elasticity

Your blood circulation doesn't flow well and your vessel has been somewhat aging. As it is caused by a lot of stress, improper life tendency, obesity, smoking and over-drinking, you should improve yourself with the proper life tendency, regular physical exercise and stress management.

Dietary supplements like Aloe extract-complex, Bamboo leaf extract, Products containing

85 year-old male with 1/3rd vascular tree HIGHLY OCCLUDED.

Score of a 25-year-old

Comment

Your vessel state and blood circulation are very good. You are recommended to keep the current condition with the proper life tendency and regular physical exercise.

- 1) Pt smokes 3 cigars each day. Done so for over 2 years
- 2) Pt does NO exercise
- 3) Pt drinks moderately
- 4) Pt is caretaker for disabled wife
- 5) Pt is fully employed

Pt uses (EZtrek) for 3 years -- morning / evening: 1 tsp each

minimal soft plaque = minimal CAC
